- Tips aan elkaar

Trials

- Platoon commanders
- Squad commanders
- Privates and corporals

Results

A group of soldiers in camouflage uniforms are working at laptops in a computer room. They are seated at long tables, and several laptops are open in front of them. The room has white walls and a whiteboard in the background. The text is overlaid on the image.

Threat analysis:

- No differences
- Even privates and corporals (p&c) discovered tactics

Planning:

- More sophisticated plans by platoon cdrs
- Only p&cs warned for dangerous situation
