

JoiNT

Joint Analysis and debriefing Toolsuite

Philip Kerbusch

JoiNT

- › A flexible concept to enhance mission analysis and mission debriefing
 - › Supporting monitoring and debriefing
 - › By facilitating real-time and shared SA
 - › Providing the right **information**, at the right **time**, in the right **format**
- › At JPOW-2010, develop and experiment with new debriefing concepts

JPOW (Joint Project Optic Windmill)

- › Integrated Air and Missile Defence (IAMD) exercise
 - › >1000 participants, 6+ nations
 - › Distributed, LVC (simulated) exercise environment
 - › Experiment and train current and future capabilities and concepts

JPOW Challenges

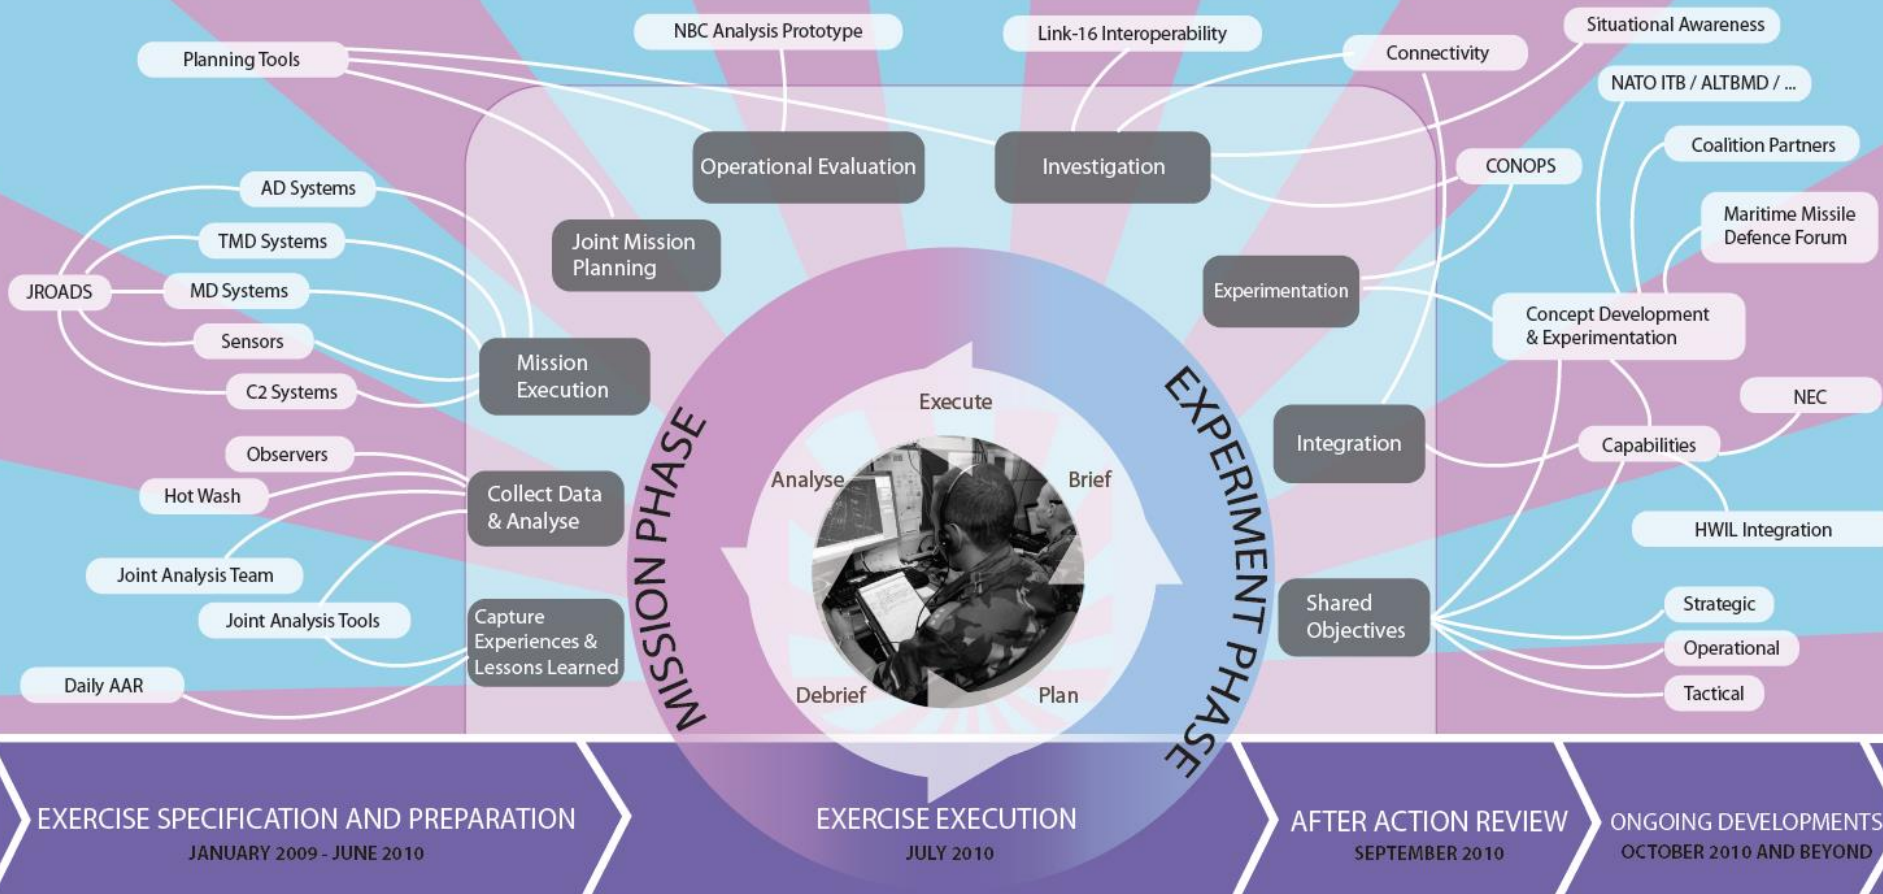

JPOW 2010 - Enhancing Mission Readiness in IAMD

Concepts & Capabilities

NATO & Coalition Partners

Exercise

Improved Interoperability

Specify, Design, Develop, and Test

- Senior Leadership Seminar, AOPG, TLPG
- Initial, Mid and Final Planning Conferences
- SME Working Groups
- Risk Reduction, Accreditation & Integration Tests

Live Virtual Constructive Assets Integration

From Lessons Identified to Lessons Learned

- Final AAR
- JPOW Handbook
- IAMD Roadmap

Exercises

- JPOW 2013
- Nimble Titan

Deployments

- NRF 18, ...

JPOW Challenges

- › Large number of participants
 - › Large number of different participant roles
- › Distributed environment
 - › Live, Virtual, Constructive
- › Tight AAR and debriefing schedule

The JoiNT Concept

- › Targeting
 - › Different participant roles (user-centric)
 - › Multiple exercises (mission-specific)

- › Adaptive
- › Flexible
- › Easily Extendable

The JoiNT Concept

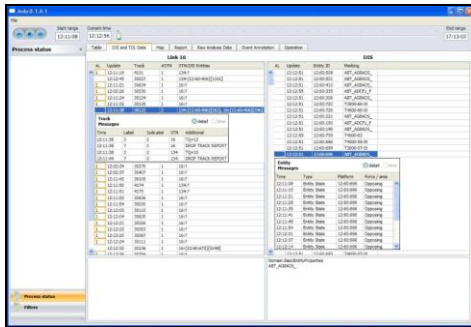

The JoiNT Concept

- › Use already available, existing tools
 - › COTS
 - › Community-available

- › Framework for integration of monitoring and debriefing capabilities
 - › Logging & Replaying
 - › Event Annotation
 - › Information Sharing
 - › (Automated) Analysis
 - › Visualisation

Setup

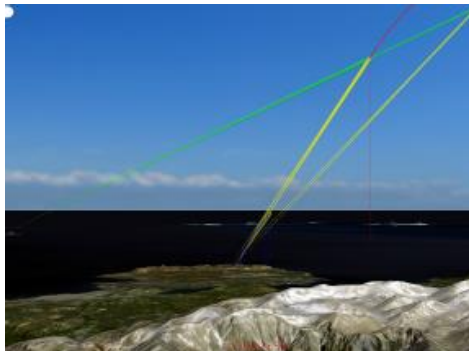

TDL Analysis

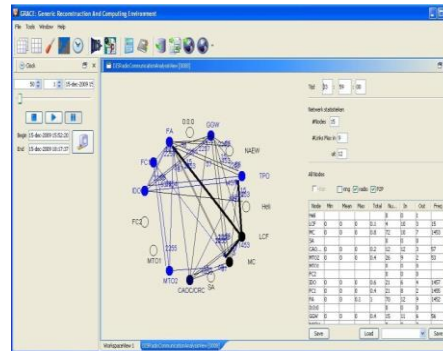

2D Viewer

Audio

Replay and
Analysis

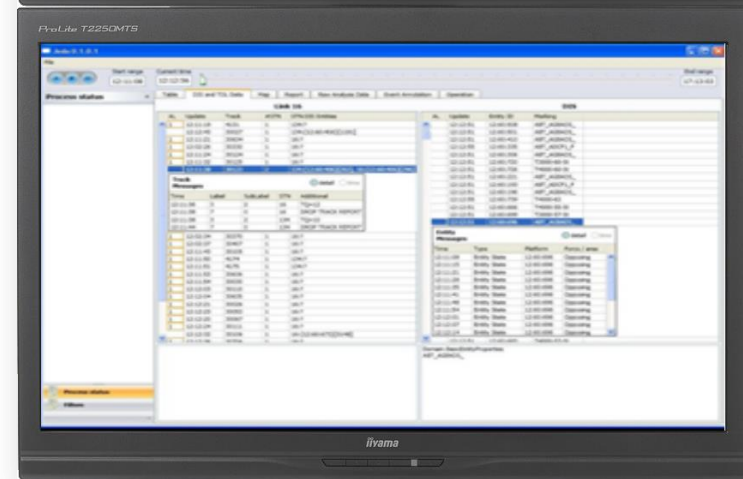

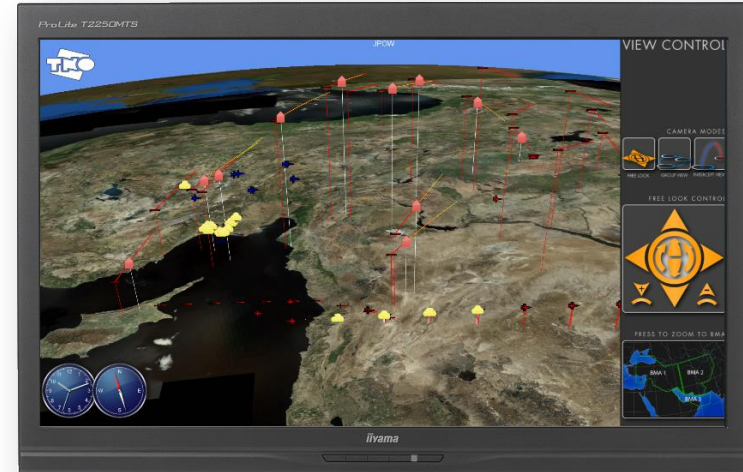

Event Marking
and Timeline

Setup

- › For system operators only (Dutch AGBADS and ADCF)
- › Two distributed AAR Stations
- › Hot-washes: instant debrief with crew (operators) and JAT
 - › Before overall debriefings

TNO innovation
for life

standing of the

- › White
- › Crews
- › JoiNT

Conclusions

- › JoiNT contributed to getting procedures sorted out quickly.
- › Integration of COTS tools & agile development work together.
- › JoiNT improves flexibility of mission debriefing.

Way Ahead

- › Further develop the integration framework
 - › Standardisation
 - › Incorporate more COTS and community tools
 - › Develop towards a permanent capability

- › Supporting other users/roles
 - › Exercise staff
 - › Debriefings

- › Try-out the JoiNT concept in different settings
 - › E.g. Land-domain exercise

Q?
