

Multi-institute research groups

	Energy research	Environmental projects	Noise abatement ¹	Industrial safety	Biotechnology	Building research Energy saving in the built environment ²	Toxicology	Humanization of work	Hospital technology
Divisions/institutes									
Division of Technology for Society									
- Industrial Safety Department									
- Biology Department									
- Institute of Applied Chemistry									
- Centre for Energy Studies									
Division for Building and Metal Research									
- Institute for Building Materials and Building Structures									
- Metal Research Institute									
- Institute for Mechanical Constructions									
Division for Industrial Products and Services									
- Forest Products Research Institute									
- Plastics and Rubber Research Institute									
- Institute for Leather and Shoe Research									
- Paint Research Institute									
- Institute for Packaging Research									
- Fibre Research Institute									
- Research Institute for Road Vehicles									
Division for Nutrition and Food Research									
- Institute CIVO-Analysis									
- Institute CIVO-Technology									
- Institute CIVO-Toxicology and Nutrition									
- Institute for Cereals, Flour and Bread									
Division for Health Research									
- Gaubius Institute for Cardiovascular Diseases									
- Medical Biological Laboratory									
- Institute of Medical Physics									
- Research Institute for Environmental Hygiene									
- Netherlands Institute for Preventive Health Care									
- Central Institute for the Breeding of Laboratory Animals									
- Radiobiological Institute									
- Institute for Experimental Gerontology									
- Primate Centre									
- Radiological Service Unit									
Division for National Defence Research									
- Laboratory of Electronic Developments for the Armed Forces									
- Physics Laboratory									
- Prins Maurits Laboratory, Institute for Chemical and Technological Research									
- Institute for Perception									
Division for Technical-Scientific Services TNO									
- Centre for Micro-Electronics									
- Ground Water Survey									
- Instrumentum									
- Institute for Mathematics, Information Processing and Statistics									
- Institute of Applied Physics (TNO-TH)									
Group Policy Research and Information									
- Research Centre for Physical Planning									
- Study and Information Centre on Environmental Research									
- Centre for Technology and Policy Studies									
- Centre for Technical and Scientific Information and Documentation									
- Patent Information Office, formerly NIDER									
Institutes connected with TNO									
- Institute for Cleaning Techniques									
- Potato Processing Research Institute									

¹ Is part of the Environmental Projects Group

² Is part of the Building Research Group
