

Corrigendum

Corrigendum to: Establishment of the enzymatic protein acetylation independent of acetyl CoA: recombinant glutathione *S*-transferase 3-3 is acetylated by a novel membrane-bound transacetylase using 7,8-diacetoxy-4-methyl coumarin as the acetyl donor (FEBS 26626) [FEBS Letters 530 (2002) 139–142][☆]
