

Bijlage IV: Factsheets ILM2 meetlocaties 2021

TNO-rapport | R12396_Bijlage

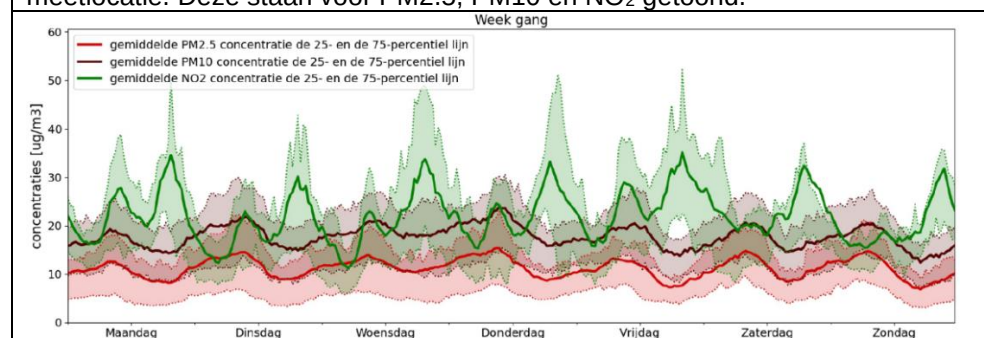

Deze bijlage hoort bij de Jaarrapportage 2021 van het Regionaal Meetnet ILM2 in Zuidoost-Brabant (TNO Rapport R12396). Dit document bevat per meetlocatie een overzicht van de meetgegevens van 2021. Bij een installatie na 1 januari 2021 worden enkel de meetgegevens van installatiedatum tot en met 31 december 2021 getoond. De getoonde NO₂ meetgegevens betreffen enkel de maanden januari, februari, november en december, indien de meetlocatie op dat moment actief was. De meetgegevens van de volgende luchtvervuilende stoffen worden getoond:

Fijnstof	Fijnstof is een vorm van luchtvervuiling die bestaat uit deeltjes die blijven zweven. In het ILM 2 worden 3 fracties gemeten. - PM1: De fractie fijnstof met deeltjesgroottes tot aan 1 micrometer. - PM2.5: De fractie fijnstof met deeltjesgroottes tot aan 2.5 micrometer. - PM10: De fractie fijnstof met deeltjesgroottes tot aan 10 micrometer.
NO ₂	Stikstofdioxide komt vooral in de lucht terecht door uitlaatgassen van verkeer en industrie.

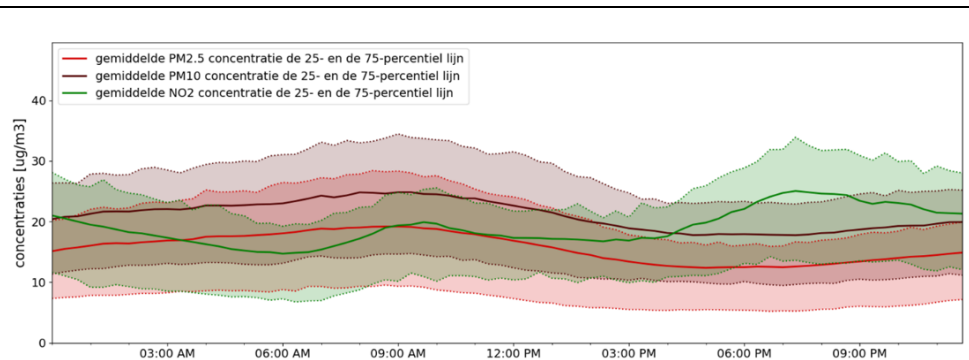

Deze factsheet zijn opgebouwd uit de volgende overzichten:

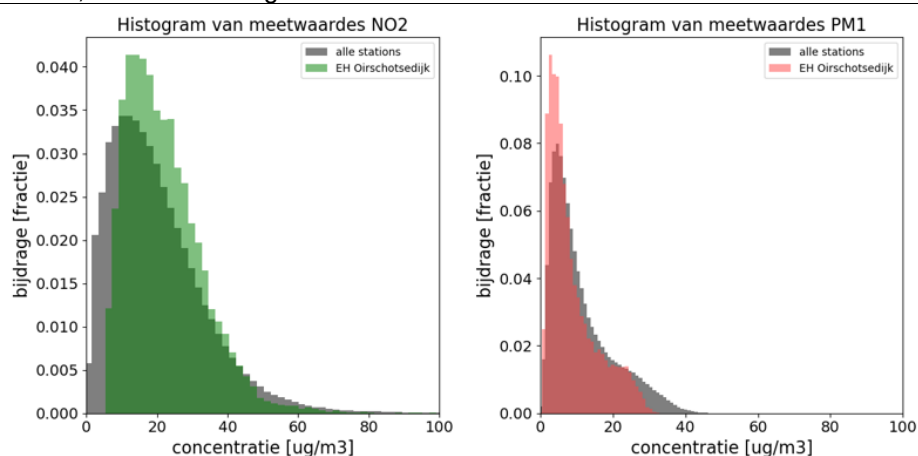

Jaarprofiel van het daggemiddelde: de gemiddeld gemeten concentratie per luchtvervuilende stof getoond per dag verdeeld over het jaar. Dit geeft een beeld van de fluctuaties in de heersende luchtkwaliteit over het jaar heen per meetlocatie. Deze staan voor PM2.5, PM10 en NO₂ getoond.

Weekgang: vertoont de gemiddelde gang van luchtvervuilende stoffen per uur over de week. Hierdoor wordt bijvoorbeeld het gemiddelde verschil in luchtkwaliteit tussen week- en weekenddagen inzichtelijk. Deze staan voor PM2.5, PM10 en NO₂ getoond.

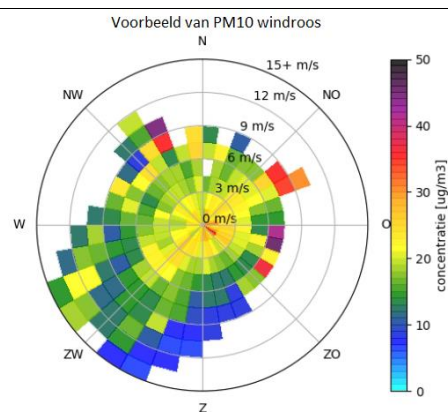

Daggang: De daggang vertoont de gemiddelde gang van luchtvervuilende stoffen per uur over de dag. Hierdoor wordt bijvoorbeeld het gemiddelde effect van de ochtend en avondspits zichtbaar over de dag heen. Deze staan voor PM_{2.5}, PM₁₀ en NO₂ getoond.

Histogram: Een histogram van de meetgegevens per meetlocatie uitgezet tegenover de gemiddelde meetgegevens over het gehele netwerk per luchtvervuilende stof. Dit geeft inzicht in de algemeen heersende luchtkwaliteit, de range en piekwaarden welke gemeten worden. Histogrammen voor PM₁, PM_{2.5}, PM₁₀ en NO₂ zijn opgenomen.

Windroosplots: Windroosplots tonen hoe de concentraties per luchtvervuilende stof variëren over het jaar in relatie tot variaties in windrichting en windsnelheid. De correlaties tussen windrichting en windsnelheid met de heersende luchtkwaliteit kunnen daarmee worden onderzocht. Dit geeft inzicht in eventuele bronnen van luchtvervuilende stoffen in de omgeving. De windroosplots zijn

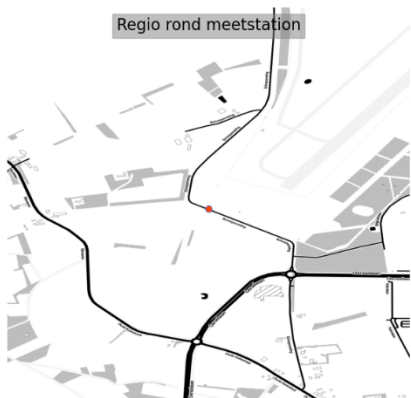

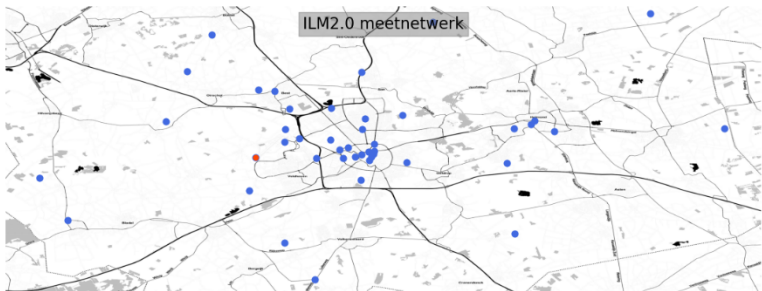

onderverdeeld in segmenten (bins). Deze bins tonen de gemiddelde meetwaarde in 2021 per windrichting onderverdeeld in windsnelheden van 1.5 m/s. Windroosplots voor PM₁, PM_{2.5}, PM₁₀ en NO₂ zijn opgenomen. In het toegevoegde voorbeeld is bijvoorbeeld zichtbaar dat concentraties PM₁₀ bij hogere windsnelheden uit het zuid/zuidwesten voor deze locatie gemiddeld lager zijn (rond de 10 µg/m³) dan bij wind uit het noordoosten (range 25-40 µg/m³).

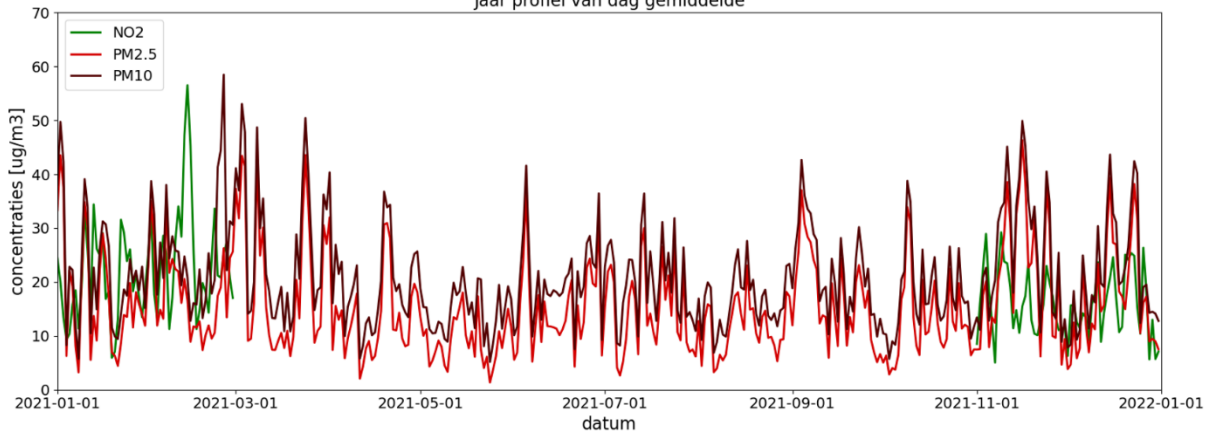

De factsheets per meetlocatie zijn de op de volgende bladzijden te vinden:

Meetlocatie	Locatie	Plaatsing	Bladzijde
Luchthavengebied Eindhoven Airport			
ILM002	EH Scherpenering	8-10-2020	4
ILM014	EH Landardseweg	20-1-2021	6
ILM025	EH Luchthavenweg	9-10-2020	8
Stedelijk gebied Eindhoven en Helmond			
ILM004	EH Finistérelaan	7-1-2021	10
ILM007	EH Oirschotsedijk	11-1-2021	12
ILM008	EH Beukenlaan	25-1-2021	14
ILM009	EH Stationsweg	11-12-2020	16
ILM011	EH prof dr. Dorgelolaan	21-12-2020	18
ILM012	EH Mathildelaan	11-12-2020	20
ILM017	EH Gennepeweg	11-1-2021	22
ILM019	EH Kanaaldijk	6-1-2021	24
ILM022	EH Meerhovendreef	11-1-2021	26
ILM023	EH Anthony Fokkerweg	25-1-2021	28
ILM024	EH Fellenoord	21-12-2020	30
ILM028	EH Klokgebouw	4-2-2021	32
ILM029	EH Wal	16-12-2020	34
ILM030	EH Botenlaan	7-1-2021	36
ILM032	EH Maaseikstraat	16-12-2020	38
ILM036	EH Vestdijk	14-10-2020	40
ILM037	EH Genovevalaan	8-10-2020	42
ILM039	EH Willemstraat	12-10-2020	44
ILM040	EH Kennedylaan	12-10-2020	46
ILM048	Helmond – Vossenbeemd	8-6-2021	48
ILM049	Helmond – Kanaaldijk	8-6-2021	50
ILM051	Helmond – Mierloseweg	8-6-2021	52
ILM052	Helmond – Kasteeltraverse	8-6-2021	54
Buitengebied Zuidoost-Brabant			
ILM003	Best – Kapelweg	10-3-2021	56
